Device Charging

Blinking red battery indicates USB device is charging

Device Charged

Green battery indicates USB device is fully charged

STEP 2

The first wall plate charger to display your device's power level with just a quick glance.

STEP 3

MADE IN CHINA

PATENT PENDING

VISUAL CHARGE™

Revolutionary Technology

Tired of wondering just how much juice your device has? The Atomi Visual Charge USB Wall Plate Charger is the first of its kind to display your device's charging status with just a simple glance: A blinking red battery means your device is charging. A green battery means it's fully charged. With a 2.1 amp port for tablets and a 1 amp port for smartphones, it can charge two USB devices simultaneously, leaving two grounded outlets free to power other accessories or appliances.

With its streamlined modern design and built-in top slot, perfect for holding your smartphone, the Visual Charge USB Wall Plate Charger makes a statement in any home or office.

Multi-Charge

Charge 2 devices simultaneously

Surge Protected

400 joules of surge protection

Ultra-Fast

Fastest possible available charge

2x Outlets

Secure grounded standard outlets

Universal

Compatible with all USB devices

Easy-To-Use

Plug-in and start charging

COSTCO ITEM # 000000

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation." Instruction manual shall include, "Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment." "NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help." Date Code: 09/15
