VISUAL CHARGE™

REVOLUTIONARY DESKTOP SOLUTION

The Visual Charge Dual USB Charger / Outlet allows you to charge and power up to four devices at the same time, all from the convenience of your desk. With a secure rubber base and space-saving design, the Visual Charge features a 2.1 amp USB port for your tablet and a 1 amp USB port for your smartphone. Each port features LED lights that beat red when charging and turn solid green when charged. Plus, two wall outlets are available to power your printer or laptop.

Proposition 65 warning: This product may contain chemicals known to the state of California to cause cancer, and/or birth defects or other reproductive harm. One-year limited warranty from date of purchase against defects in materials and workmanship.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Instruction manual shall include, "Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment." "NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help." Date Code: 08/15
